8" finished blocks

Made with 2 ½" strips of background fabric **and** prints.

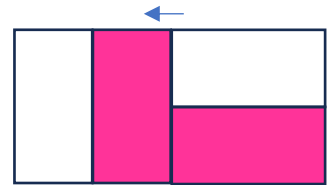

Sew a background strip to each print strip on the long sides, right sides together, with ¼" seam. Do not press before cutting.

Cut each stripset into 4 equal segments, 4 ½" long.

Open the segments and press the seam toward the darker fabric.

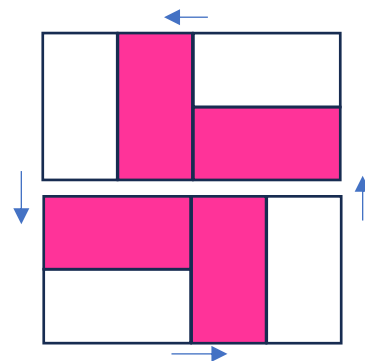

Sew matching segments together, exactly as shown:

Sew matching halves together, nesting the seams.

Open the center intersection and press the seams in the direction of the arrows. This allows seams to nest with the neighboring blocks.

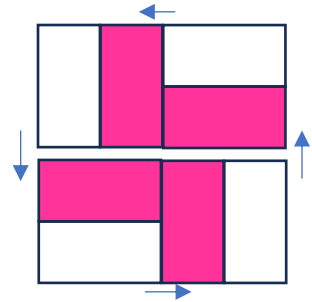

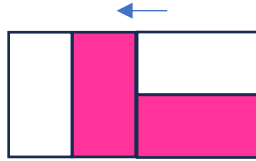

Set the blocks straight or on-point. Add borders as desired.

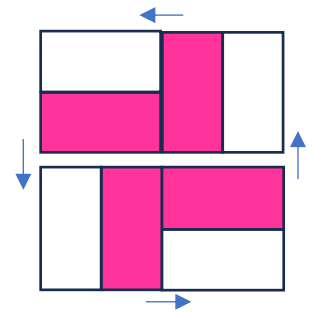

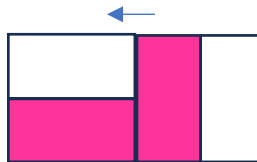

CARTWHEEL VARIATION

designed by Amanda Jean of Crazy Mom Quilts, for Moda Bake Shop

Complete *half* the blocks like this...

Complete *half* the blocks like this...

Assemble the blocks in an alternating pattern. Match and pin seams carefully.
