

Weighted Blanket -- Pieced Tops

Sizes:

The majority of our weighted blanket requests are for blankets that are the following sizes.

Finished Size	Length in Squares	Width in Squares	Total Needed
28" x 36"	7	9	63
32" x 32"	8	8	64
32" x 40"	8	10	80

These sizes are based on quilt tops made from 4 ½" squares (4" finished). This size is very important as the weight and size of the pellet pockets has been calculated based on the squares being this size.

Fabric Choices:

Weighted blankets are only appropriate for children aged 7 and older. The majority of our requests are for common use in foster care group homes, special education classrooms and CPS facilities. With this in mind, please make the tops with fabric which is appropriate for either gender. Bright colored and 'I-Spy' tops are ideal for these children.
